John Agnew explores the likely geopolitical outcome of China's rise. Geopolitically the world may be transforming into a more multi-polar and decentralised place, organised around regional great powers such as China, Brazil and Russia, rather than based on a worldwide political-economic hegemon such as the United States.

In his book, The China Fallacy, Donald Gross appeals for dramatic improvements in Sino-American relations with respect to major security, economic, and political issues. Based on his previous experience as a Department of States official and at the White House, Donald Gross provides insights into the genesis of American policies critical of China, unduly influenced by the hardliners.
