The Human Genome Project - Hebrew University of Jerusalem

The Human Genome Project (HGP) was one of the great feats of exploration in history - an inward voyage of discovery rather than an outward exploration of the planet or the cosmos; an international research effort to sequence and map all of the genes - together known as the genome - of members of our species, Homo sapiens.

All About The Human Genome Project (HGP) - National Human

Worldwide research initiatives are mapping the human microbiome, giving insight into uncharted species and genes. One initiative is the Human Microbiome Project (HMP) sponsored by the National Human Genome Research Institute (NHGRI), part of the National Institutes of Health (NIH). The HMP began in 2008 as an extension of the Human Genome Project.
