Chancing it: The laws of chance " and what they mean for

According to the Laws of Chance shows Arp playing with random composition, in this case dropping painted pieces of paper onto a surface. Torn Woodcut was made in a similar way in 1954, using the pieces of a Dada print he had made in 1920.

According to the Laws of Chance, 1933 - Jean Arp - WikiArt.org

When a chance event is explained what role does its chance play in the explanation? To answer this question we must, first, say something about what a body of fact must do to achieve the status of an explanation, and second, say how facts about E's chance contribute to the achievement of that status.

The Role of Chance in Explanation - MIT

Recall what Borel said of events prohibited under the Single Law of Chance "that sensible humans "must act, in all circumstances, as if they were impossible" (1962, p. 3, italics in orig.). Unfortunately, so many scientists today do not act sensibly.

God and the Laws of Science: The Laws of Probability

Laws of Chance chronicles the game's early history, as booking agents, dealers, and players spread throughout Rio and the lottery was outlawed and driven underground. Analyzing the game's popularity, its persistence despite bouts of state repression, and its sociocultural meanings, Amy Chazkel unearths a rich history of popular ...

Laws of Chance | Duke University Press

We assign a probability $1/2$ to the outcome HEAD and a probability $1/2$ to the outcome TAIL of appearing. Similarly for each of the outcomes 1,2,3,4,5,6 of the throw of a dice we assign a probability $1/6$ of appearing. Similarly for each of the outcomes 000001,...,999999 of a lottery ticket we assign a probability $1/999999$ of being the winning ticket.

Laws of Probability, Bayes's theorem, and the Central Limit

Chapter 8 Discrete probability and the laws of chance 8.1 Introduction Consider the following experiment: We flip a coin and observe two possible results: "heads" (H) or "tails" (T). A fair coin is one for which these results are equally likely. Similarly, consider
