The original VALUE initiative involved teams of faculty and other educational professionals to develop 16 VALUE rubrics for the LEAP Essential Learning Outcomes. Each rubric was developed from the most frequently identified characteristics or criteria of learning for each of the 16 learning outcomes. Drafts of each rubric were then tested by faculty with their own students

Readers guide The 17 statistical tables in this annex provide an overview of key aspects of human development. The first six tables contain the family of composite human development indices and their

Human Development Report 2016: Human Development for Everyone

A value network is a business analysis perspective that describes social and technical resources within and between businesses. The nodes in a value network represent people (or roles). The nodes are connected by interactions that represent tangible and intangible deliverables. These deliverables take the form of knowledge or other intangibles and/or financial value.
