Complexity characterises the behaviour of a system or model whose components interact in multiple ways and follow local rules, meaning there is no reasonable higher instruction to define the various possible interactions.. The term is generally used to characterize something with many parts where those parts interact with each other in multiple ways, culminating in a higher order of emergence ...

Support diversity. Supporting diversity means providing an environment in which the ideas of all are evaluated equally, regardless of individual characteristics, on the basis of evidence. Diversity is not simply the representation of individuals and ideas but is actual inclusion, which can only be achieved by creating a culture of openness and recognizing and addressing unconscious bias.
