A changeling is a creature found in folklore and folk religion throughout Europe. A changeling was believed to be a fairy child that had been left in place of a human child stolen by the fairies. The theme of the swapped child is common in medieval literature and modernly reflects concern over infants thought to be afflicted with unexplained diseases, disorders, or developmental disabilities.

A flood myth or deluge myth is a narrative in which a great flood, usually sent by a deity or deities, destroys civilization, often in an act of divine retribution. Parallels are often drawn between the flood waters of these myths and the primaeval waters found in certain creation myths, as the flood waters are described as a measure for the cleansing of humanity, in preparation for rebirth.
