The RC-300 Loop Station's internal memory offers enough space for 3 hours of recording. This improves on the RC-50 more than sevenfold, and the RC-300 can also be connected to your computer via a USB cable. You can literally export your entire loop collection to your computer, infinitely increasing the amount of loops you can store.

Few topics seems to stir up so much controversy and opinions as whether true bypass or buffered pedals are the best solution for your tone. In this feature we'll have a look at what's really going on as well as a few tips on how to arrange your pedalboard.

Buffers VS True Bypass

Excellent work! I've been working in a similar robot since July of 2010, but after a few setbacks I started working on it again last year. I also decided to use mbed due to the speed.
