Back in January 2011 i wrote about the NAV Launcher, a project based on the Navision Starter v1.2 originally created by Sergey Gazizyanov back in 2006. Well, i realized that i never put a download link on the site. Attached in this post is the installer for the .NET project.

### Got C/AL?

A rootkit is a collection of computer software, typically malicious, designed to enable access to a computer or

areas of its software that is not otherwise allowed (for example, to an unauthorized user) and often masks its existence or the existence of other software. The term rootkit is a concatenation of "root" (the traditional name of the privileged account on Unix-like operating systems ...
