

vulnerability in the nations pdf

Vulnerability refers to the inability (of a system or a unit) to withstand the effects of a hostile environment. A window of vulnerability (WOV) is a time frame within which defensive measures are diminished, compromised or lacking. [citation needed]The understanding of social and environmental vulnerability, as a methodological approach, involves the analysis of the risks and assets of ...

In its broadest sense, social vulnerability is one dimension of vulnerability to multiple stressors and shocks, including abuse, social exclusion and natural hazards. Social vulnerability refers to the inability of people, organizations, and societies to withstand adverse impacts from multiple stressors to which they are exposed. These impacts are due in part to characteristics inherent in ...

The Global Environment Outlook (GEO) is often referred to as UN Environment's flagship environmental assessment. The first publication was in 1997 and was originally requested by Member States. It is a flagship report because it fulfills the core functions of the organization, which date back to the UN General Assembly resolution that established the UN Environment Programme in 1972.
