Phrases and Clauses I. A phrase is a collection of words that may have nouns or verbals, but it does not have a subject doing a verb. The following are examples of phrases: leaving behind the dog smashing into a fence before the first test after the devastation between ignorance and intelligence broken into thousands of pieces because of her glittering smile

In everyday speech, a phrase may be any group of words, often carrying a special idiomatic meaning; in this sense it is synonymous with expression. In linguistic analysis, a phrase is a group of words (or possibly a single word) that functions as a constituent in the syntax of a sentence, a single unit within a grammatical hierarchy. A phrase typically appears within a clause, but it is ...

The comma (,) is a punctuation mark that appears in several variants in different languages. It has the same shape as an apostrophe (') or single closing quotation mark in many typefaces, but it differs from them in being placed on the baseline of the text. Some typefaces render it as a small line, slightly curved or straight but inclined from the vertical, or with the appearance of a small ...
