This worksheet is created for 7th-grade or high school world geography teachers for use in the classroom as a supplement for textbook studies of world climate regions. The map is from the National Geographic world geography textbooks. A separate answer sheet is included.

Exploring World Climate Zones worksheet

Physical Geography: Earth 1 Environments and Systems ... places and features change over time, and the processes responsible ... world and their place in it. Geography has much more to do with asking questions and solving problems than it does with rote memorization of facts.

Physical Geography: Earth Environments and Systems 1

geography. After an introduction to geography, students study each major region of the world. For each region, students learn about the importance of the physical geography and its impact on the region's development. Students study cultural aspects of each region and examine the influence of geography on the cultural development of each region.
