Notes on risk: All investing is subject to risk, including the possible loss of the money you invest. Bond funds are subject to the risk that an issuer will fail to make payments on time, and that bond prices will decline because of rising interest rates or negative perceptions of an issuerâ€™s ability to make payments.

Prescription drugs are intended to make people who have a condition or illness better. When people use them for anything other than their recommended purposes, they are at risk for serious health consequences. Here are some things to look for if you suspect your friends are abusing prescription drugs: n Are they hanging out with new friends or ...
